

# DID YOU KNOW?

AS OF JULY 1

## CCNA THRESHOLDS HAVE INCREASED

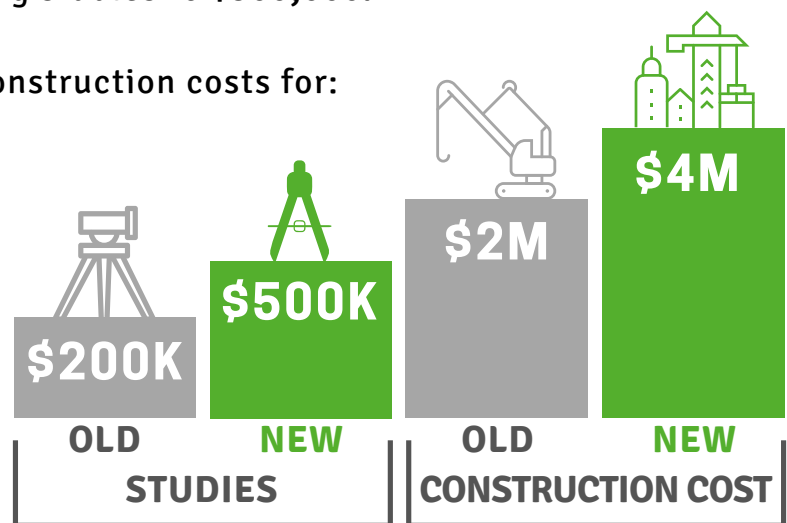

### WHAT DOES THIS MEAN?

Beginning July 1, 2020, thresholds for continuing services contracts under the Consultants' Competitive Negotiation Act (CCNA) increased.

HB 0441 increased the maximum limit for continuing contracts covered by the CCNA to an estimated per-project construction cost of **\$4 million** and increased the maximum limit for procuring studies to **\$500,000**.

This includes study fees and construction costs for:

- Engineering
- Landscape Architecture
- Surveying
- Architecture

### WHY DOES THIS MATTER?

With increased thresholds you can achieve time and financial efficiencies by leveraging your CCNA contracts without needing to go through the additional procurement process.

REDUCE PROJECT  
TIMELINES AND COSTS

ELIMINATE ADD'L  
ADMIN COSTS

INCREASE ACCESS TO  
QUALIFIED PROJECTS
